PLASTIC AND RECONSTRUCTIVE SURGERY

DIPLOMATE AMERICAN BOARD OF PLASTIC SURGERY

PATIENT SAFETY

- Upon office entry: COVID-19 screening questionnaire, temperature check, hand hygiene, and face mask for all patients & staff.
- A mask is required to be used at all times in the office and will be replaced by a Pharma Systems Mini Filtration device when the mask must be removed for a procedure.
- We practice physical distancing whenever possible.
- Gowns and face shields are to be used when procedures are performed.
- Only one patient in the office at any time. No visitors, friends, or escorts are permitted.
- Special needs will be met on an individual basis.
- All treatment areas, frequently touched surfaces, and the bathroom are thoroughly cleansed and sanitized between patient visits and throughout the day.
- The consult room is the new hub for treatments, scheduling, & contactless payments in privacy and safety.
- A state-of-the-art air cleaning system has been installed to completely clean the office air of all potential aerosolized viruses and bacteria multiple times every hour and every 3 minutes in the operating room.
- COVID-19 PCR testing is required of all surgical patients within 5 days of their procedure.
- As an extra measure of safety for all our patients and staff, you will be contacted during the 2 weeks following your visit to enquire about your health status.

In accordance with the highest standards for patient care and safety, Dr. Forley's office-based ambulatory surgical suite is accredited by the Joint Commission. "The Joint Commission is an independent, not-for-profit organization that evaluates and accredits more than 15,000 health care organizations and programs in the United States. It is the nation's predominant standards-setting and accrediting body in health care."
